Explanation of Tax and Rate Types and the format of the Monthly Local Tax Rate Report

Act 98-192, known as the Local Tax Simplification Act of 1998, required each county and municipality to submit to the Department a list of any sales, use, rental, lodgings, tobacco, or gasoline taxes it levies/administers and the current rates thereof. The Act requires all counties and municipalities to notify the Department in writing of any new levy or change at least 30 days prior to the effective date of the new tax or amendment. In accordance with the Act, the Department compiles and publishes the information in this document. This publication lists each county or municipality in strict alphabetical order, listing tax types, rate types, the agency that administers the tax, and the current rates. The abbreviations and explanations of the data are as follows:
