Local governments (cities and counties) have the authority to administer their own taxes, authorize the Alabama Department of Revenue to administer their taxes, or hire a third-party tax administrator.

You will often see or hear reference to ‘State-administered’ and ‘Non-state administered’ local taxes:

State Administered local taxes are those taxes that the local government authorized the Alabama Department of Revenue to administer on their behalf.

Non-State Administered (NSA) local taxes are those taxes that the local government self-administers or hired a third party administrator to administer for them.
