Alabama Tax Forms Mailed

Montgomery, Dec. 28, 2000—The end of December marked the annual mail out of over 630,000 Alabama Individual Income Tax Returns to taxpayers, announced State Revenue Commissioner Michael L. Patterson.

During the tax-filing season, over 1.7 million returns are received each year by the department. Last year over 367,165 Alabamians took advantage of Alabama's electronic filing option and over 832,000 opted to use paper forms provided by their tax preparers. Taxpayers who chose to electronically file their 1999 Alabama returns or who chose to use returns provided by their paid preparers were not included in the 2000 mail out of returns.

As in past tax seasons, the department will continue to supply area post offices, public libraries, and various state office buildings with state tax returns. Mailings of returns to public outlets for general distribution began during mid-December and will continue throughout the month.

Forms may also be downloaded from the department's Web site at www.ador.state.al.us. The department's Web site also features a link with the IRS for federal tax return information.

For more information concerning Alabama's tax filing requirements, call or visit the nearest taxpayer service center listed below, or visit the department's Web site at www.ador.state.al.us.
