**RR DONNELLEY**

## RR DONNELLEY LASER LABELS USER'S REFERENCE GUIDE

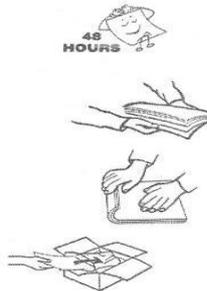

### TEMPERATURE AND ATMOSPHERE

**DONNELLEY LASER LABELS** were designed specifically for use in sheet-fed laser printers. Special care must be taken in the packaging, storage, and handling of this product to insure it will perform as expected. With this in mind, we have provided the following reference guide for your benefit.

**MOISTURE & CURL:** For proper feeding and imaging in cut sheet laser printers, label stock must be flat. Laser Labels employ the use of paper. Paper absorbs or gives off moisture with changes in the relative humidity of the atmosphere. Sudden changes in temperature and/or humidity can cause the paper fibers in the label stock to shrink or swell, causing it to curl, and jam in the printer.

### HANDLING RECOMMENDATIONS:

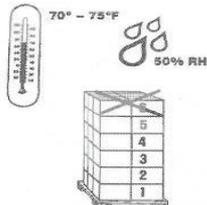

1. It is very important that Laser Labels be stored in the printer's operating environment for at least 48 hours prior to use. This will minimize the potential for curl.

2. Open only enough material to be used for the job on hand. Fan the label sheets lightly, on all four sides, prior to loading into the printer. Close opened packages to prevent moisture loss or gain.

3. If a curl toward the label side is evident, bend the sheets toward the backing to flatten the sheets before loading. Discard the top and bottom sheets, which may have a static charge.

4. Load labels according to the instructions in your laser printer operator manual and process as you would normal for printing.

5. Upon completion of printing, return unused labels to the protective plastic wrap and reseal the package.

### STORAGE INSTRUCTIONS:

1. Never store Laser Labels in extremely hot or cold conditions. This will significantly shorten the shelf life of your labels and perhaps even render them un-useable. We recommend Laser Labels be stored at 70 to 75 degrees Fahrenheit and 50% (+ or - 5%) Relative Humidity to insure a 1 year shelf life.

2. We recommend you do not store your labels more than 4 to 5 cartons high (or no more than 45" in height). Excessive pressure from over-stacked cartons may cause the adhesive to ooze out from the edges of labels contained in the lower placed cartons.

**REMEMBER – 1 YEAR SHELF LIFE**

DATE OF  
MANUFACTURE

**OCTOBER 2017**

# POD Decals

- Include DOR assigned control number in decal field on registration receipt and registration record
- Control number same as current roll decal numbers (8 characters)
  - 2 digit county code and 6 digit sequential number
  - Assigned by DOR when ordered
- County system produces audit report which includes:
  - Control numbers
  - Time period
  - Sortable (clerkID, date, etc.)

## POD Decals

- MLI Reinstatement fees (32-7A-12):
- Licensing officials retain 10%

# News and Alerts

## News and Alerts

The following changes to ALTS have recently been moved into production:

ALTS-3233 - Added “Documents Received” status to application record so that DA will know when documents are received.

ALTS-3498 - Allow owner information to be entered for out of state salvage title application when it is retained by owner.

ALTS-3068 - Removed requirement to enter title number on pre-qualifier screen for replacement titles.

ALTS-3159 - Added username of clerk that created the application on reject dashboard page.

ALTS-3076 - Allow DBA name to be entered and reflected on title application.

ALTS-3504 - Fixed issue that was preventing application for MH title with surety bond.

ALTS-3343 - Changed “Required Documents” to “Supporting Documents” on the title application.

ALTS-3520 - Fixed VIN decoder to attempt to decode trailer body styles.

ALTS-3064 - Added link to document images for designated agents

ALTS-3456 - Added undeliverable address feature to ALTS menu for designated agents.

# Application Layouts

There are two different application layouts.

- Wizard style; guided step-by-step through the application.
- Single page style; similar to ETAPS.
- You can select your preference under ***My Settings***.

MVTRIP Version: 0.2.491 deployed on 9/29/2017 9:05:53 AM Related Tasks Logout ADMIN\_70-00002-00

ALTS Home Apply Actions Help My Settings

- Organization Settings
- My Preferences

### Application Settings

Select a layout style for application display

Wizard Style (recommended)

New application information is entered in a Wizard style layout. Related Fields are grouped together in tabs and you will be guided through the application process.

Single Page Style

New application information will be entered on a long single page entry with every field visible at the same time.

# Common Actions

On homepage, click “Actions” to request a hold, void an application, see the application status, view documents, change an address, etc.

The screenshot displays the MVTRIP website interface. At the top left is the MVTRIP logo. Below it is the ALTS logo. The navigation bar includes links for Home, Apply, Actions, and Help. The Actions dropdown menu is open, showing the following options: Reprint, Void, Edit, Hold, Submit & Pay, Application Status History, Rejected Applications, Documents, and Search Titles. Below the navigation bar, there are several sections: 's and Alerts', 'his time', 'Application Search Options', and 'Applications'.

# ALTS Changes

- Fixed Performance Issues
- Printing and Mailing Issue
- Fixed Submission and EFT Report Issues
- Removed requirement to enter title # on pre-qualifier screen for replacement applications.
- DBA name for individuals now reflected on application.
- Auto approving applications

# ALTS Changes

- Added link for designated agents to view documents submitted for their applications.
- Added ability to correct undeliverable address.
- Added username of clerk that created application on dashboard page.
- Added “Documents Received” status.
- Require user to cancel or save application when exiting application.

# Future ALTS Changes

- Allow designated agents to put their own applications on hold for 30 days.
- Allow applications with out of state titles as supporting document to be printed without the out of state title number.
- Allow reject notices to be sent to multiple email addresses.
- Allow reject notices to be reprinted.
- Allow date fields to be entered with or without slashes

# Motor Vehicle Division

- Main telephone number: (334) 242-9000
- Licensing Offices should select option 5
- Provide name, county and reason for call
- Call will be transferred to a live person in the appropriate work unit
- MVD staff member should identify themselves, if not, ask for their name
- Please report any issues to MVD management
