What's New for the 2008 Excise Tax Year?

Form FIE-V. The Alabama Department of Revenue requires the use of Form FIE-V, Financial Institution Excise Tax Payment Voucher, to submit payments due with all 2008 excise tax returns. Any excise tax return payment mailed to the Department should be remitted with Form FIE-V. Payments of \$750 or more are required to be remitted electronically. If the payment is made electronically, do not remit Form FIE-V.

Form ET-1C. Consolidated Financial Institution Excise Tax Return. Taxpayers electing to file a consolidated excise tax return must complete the new Form ET-1C. Form ET-1C was designed to summarize tax data from each of the separate companies included in the consolidated group. A Proforma Form ET-1 should be completed for each member of the consolidated excise tax group. See instructions for Form ET-1C for additional information.

General Information for Financial Institutions.

Alabama Form ET-1 must be filed by taxpayers meeting the definition of financial institution (as defined in Section 40-16-1, *Code of Alabama 1975*) which are doing business in Alabama by engaging in the businesses specified in Section 40-16-4, *Code of Alabama 1975*. See **Section 40-16-1, Definition of Financial Institution** and **Section 40-16-4, Statute Imposing the Alabama Financial Institutions Excise Tax**, below.

According to Section 40-16-5, *Code of Alabama 1975*, the Financial Institutions Excise Tax is assessed for the privilege of engaging in the business of a financial institution in the State of Alabama for the current State Tax Year (the current calendar year - referred to in these instructions as the Excise Tax Year), and the tax is assessed in the current Excise Tax Year.

The Alabama Department of Revenue administers the Alabama Financial Institutions Excise Tax. The Alabama Banking Department regulates all state-chartered banks, trust companies, and various providers of consumer credit.

Form ET-1 is an annual return due on April 15th of each excise tax year. The Financial Institutions Excise Tax is payable on or before April 15th of the excise tax year. The Alabama Taxable Income, computed and reported on the form, is for the last taxable year of the financial institution ended prior to April 1, of the excise tax year.

Example: *The 2008 Alabama Form ET-1 is due on April 15, 2008. Payment of the tax liability shown on the 2008 Form ET-1 allows the taxpayer to engage in the business of being a financial institution in the State of Alabama for the 2008 calendar year. If the taxpayer is a calendar year taxpayer, the Alabama Taxable Income computed and shown on the 2008 Form ET-1 is based on the operations of the 2007 calendar year.*

Section 40-16-1, Definition of Financial Institution.

Section 40-16-1, *Code of Alabama 1975*, defines the term "financial institution" as follows:

"...(1) FINANCIAL INSTITUTION. Any person, firm, corporation and any legal entity whatsoever doing business in this state as a national banking association, bank, banking association, trust company, industrial or other loan company or building and loan association, and such term shall likewise include any other institution or person **employing moneyed capital coming into competition with the business of national banks**, and shall apply to such person or institution regardless of what business form and whether or not incorporated,

whether of issue or not, and by whatsoever authority existing..."

Section 40-16-4, Statute Imposing the Alabama Financial Institutions Excise Tax.

Section 40-16-4, *Code of Alabama 1975*, imposes an excise tax on financial institutions, specifically, Section 40-16-4(a)(1) states:

"...Every such financial institution engaging in any of the following businesses:

- (i) Banking;
- (ii) Conducting the business of a financial institution as defined in this chapter;
- (iii) Conducting a credit card business through the issuance of credit cards to Alabama residents or businesses; or
- (iv) Conducting a business **employing moneyed capital coming into competition with the business of national banks**

shall pay to the state annually for each taxable year an excise tax measured by its net income allocated and apportioned for the taxable year at the rate of six and one-half percent of the net income..."

Activities Not Meeting the Definition of Financial Institution.

Simply lending money does not qualify a taxpayer as a financial institution, as the term is defined in Section 40-16-1, *Code of Alabama 1975*. Also, the results of court cases over the years have indicated that "employing moneyed capital coming into competition with the business of national banks" means the competition with the national banks must be serious in nature and the capital employed in the competition must be substantial and similar in size when compared to the capitalization of the national banks. Therefore, generally, small loan companies, personal loan companies, payday loan companies, check cashing companies, automobile financing companies, title loan companies, cash advance companies, pawn shops and companies providing solely mortgage origination services (as opposed to issuing and holding the mortgages) are not considered to be "employing moneyed capital coming into competition with the business of national banks" nor are they considered to be a "financial institution" for purposes of the Alabama Financial Institutions Excise Tax Law.

For purposes of the Alabama Financial Institutions Excise Tax, performance of any one of the following activities, by a person, firm, corporation, or legal entity doing business in the State of Alabama, will not necessarily qualify the taxpayer as a financial institution, as the term is specified in Section 40-16-1, *Code of Alabama 1975*:

1. Those activities required to be licensed under the Alabama Small Loan Act – Title 5, Chapter 18, *Code of Alabama 1975*, concerning loans of \$749 or less;
2. Those activities required to be licensed under the Deferred Presentment Services Act – Title 5, Chapter 18A, *Code of Alabama 1975*, concerning what are sometimes known as payday loans;
3. Those activities required to be licensed under the Alabama Consumer Credit Act – Title 5, Chapter 19, *Code of Alabama 1975*;
4. Those activities required to be licensed under the Alabama Pawnshop Act – Title 5, Chapter 19A, *Code of Alabama 1975*; and,

5. Those activities required to be licensed under the Mortgage Brokers Licensing Act – Title 5, Chapter 25, **Code of Alabama 1975**.

Please refer to each of the above-named laws to identify those entities which may be exempt from the licensing requirements of the laws (generally banks are exempt from the licensing requirements).

Example: *If the taxpayer is a bank and the bank also performs in the State of Alabama those activities required to be licensed under the Alabama Consumer Credit Act, the taxpayer would meet the definition of “financial institution” specified by Section 40-16-1, Code of Alabama 1975, because it is a bank and banks are specifically included in the definition. But, if the taxpayer is a limited liability company and performs in the State of Alabama only those activities required to be licensed under the Alabama Consumer Credit Act, the taxpayer would not meet the definition of “financial institution” as specified in Section 40-16-1, Code of Alabama 1975. The taxpayer would be subject to the provisions of the Alabama income tax law, not the provisions of the Alabama Financial Institutions Excise Tax law.*

A net operating loss is the excess of allowable deductions over the gross income of a taxpayer during a taxable year. Attach a supporting schedule showing the amount of NOL incurred for each period and the amount of such loss absorbed in each period. If a NOL originates during a year that a consolidated Alabama Form ET-1 is filed, the NOL originated must be attributed to the group member or members incurring the loss. Subsequent carry back or carryforward of the net operating loss must still be member-specific. The NOL incurred by one group member must never be used to offset the income of another group member.

A net operating loss for a financial institution will be carried back two years, then forward to the eight succeeding taxable years in chronological order. property purchased and paid for by the financial institution for its consumption;

2. State utility taxes paid on telephone, electrical power, gas or water;
3. Rental or leasing taxes paid directly to the State of Alabama for the privilege of leasing tangible personal property to others within the State of Alabama.

LINE 36 – Total payment Due/(Refund Due). Subtract line 33d from the sum of lines 32, 34 and 35, and enter the amount here. A negative amount represents an overpayment.

Schedule A – Distribution Data. Taxpayers conducting business in Alabama are required to provide the percentage of their total business conducted in this state by the amount of business conducted in each county and municipality. This information is captured in Schedule A, and is used to determine how monies collected will be distributed for the tax year.

A financial institution that does not maintain an office in Alabama, but is subject to tax, is not required to complete Schedule A.

Schedule B – Alabama Net Operating Loss Carryforward Calculation. Net operating losses will be carried back two years from the year of the loss, and then carried forward for eight years. Net operating losses must be carried back or forward only on the account of the member which incurs the loss and must be used to offset the income over the ten year period in chronological order. **Taxpayers claiming an NOL for a tax period that is more than six years old must attach a copy of the Form ET-1 (page 1 only). These items are excluded from apportionable income and are allocated either to Alabama or to another state. See Alabama Department of Revenue Regulation Number 810-9-1-.05, **Apportionment and Allocation of Net Income of Financial Institutions**, for a discussion of the classification of income and expense into business and nonbusiness categories and the assignment of nonbusiness items to specific jurisdictions.

Beside the line number in Schedule K, enter the item description.

In Column A enter the total amount of gross income or loss to be excluded from apportionable income.

In Column B enter the amount of gross income or loss allocable to Alabama.

Enter total nonbusiness expense in Column C and any nonbusiness expense allocable to Alabama in Column D. Nonbusiness expense may exceed nonbusiness income and in fact may exist when there is no nonbusiness income.

Add the amounts in Columns E and F, and enter the totals on line 2. Carry the total of Column E to page 1, line 22. Carry the total of Column F to page 1, line 26.

Schedule L – Alabama Apportionment Factor. The financial institution's business activity in Alabama is represented by the Alabama Apportionment Factor, which is computed as the average of: the property factor; the payroll factor; and, the receipts factor. See Alabama Department of Revenue Regulation Number 810-9-1-.05, **Apportionment and Allocation of Net Income of Financial Institutions**, for detailed instructions regarding the items to be included in the numerator and the denominator of each of these factors.

For purposes of the Alabama Financial Institutions Excise Tax, "business income" is income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations. In essence, all income which arises from the conduct of trade or business operations of a taxpayer is business income. For purposes of administering the Alabama Financial Institutions Excise Tax, the income of the taxpayer is business income unless clearly classifiable as nonbusiness income, and nonbusiness income means all income other than business income.

Property Factor:

For purposes of computing the property factor, real and tangible personal property mean, respectively, property on which the taxpayer may claim depreciation for federal income tax purposes, or property to which the taxpayer holds legal title and on which no other person may claim depreciation for federal income tax purposes (or could claim depreciation if subject to federal income tax). Real and tangible personal property do not include coin, currency, or property acquired in lieu of or pursuant to a foreclosure.

For purposes of computing the property factor, loans include any extension of credit resulting from direct negotiations between the taxpayer and its customer, or the purchase, in whole or in part, of such extension of credit from another or both. Loans include participation, syndications, and leases treated as loans for federal income tax purposes. Loans are valued at their outstanding principal balance, without regard to any reserve for bad debts. Credit card receivables are valued at their outstanding principal balance, without regard to any reserve for bad debts.

City and County Distribution Information Required by Section 40-16-6. Located on the bottom of page 4 is an area for providing the information required by Section 40-16-6, *Code of Alabama 1975*, which states: "...any financial institution which conducts its business in more than one municipality or in more than one county in this state shall, ...report in detail the percentage of its total business in the state conducted in each municipality and in each such county..." The proceeds from the Financial Institution Excise Tax collections are then distributed to those localities based on the city and county distribution information provided by the taxpayers. Please attach additional schedules as needed.

Schedule M – Federal Income Tax. Schedule M is used to compute the amount of the financial institution's federal income tax deduction allowable for (apportioned to) Alabama and to offset that deduction with the amount of any refund received in the taxable year.

If the taxpayer is a member of a federal affiliated group which files a consolidated federal corporate income tax return, check the appropriate block to indicate the election made under IRC §1552. Attach a copy of the workpaper showing the computations made in allocating the consolidated tax liability to the separate members in the affiliated group.

LINE 1 – Federal Income Tax Deduction to be Apportioned. Taxpayers filing a non-consolidated federal return should enter on line 1 the actual tax payment made to the Internal Revenue Service (or share of the payment forwarded to the Internal Revenue Service if included in a consolidated return).

LINE 2 – Alabama Income. Enter the amount from line 27, page 1 (Alabama Income before Federal Income Tax Deduction).

LINE 3 – Adjusted Total Income. Enter the amount from line 21, page 1 (Net Income or Loss).

LINE 4 – Federal Income Tax Apportionment Factor. If the amounts on lines 2 and 3 are greater than zero, divide the amount on line 2 (Alabama In-

come) by the amount on line 3 (Adjusted Total Income), and enter the percentage on line 4. If the amount on line 2 (Alabama Income) or line 3 (Adjusted Total Income) are zero or less than zero, enter zero on line 4.

LINE 5 – Federal Income Tax Deduction Apportioned to Alabama. Multiply the amount on line 1 (Federal Income Tax Deduction to be Apportioned) by the percentage on line 4 (Federal Income Tax Apportionment Factor) and enter the result on line 5.

LINE 6 – Refund of Federal Income Tax Deducted in Prior Year. Enter the amount of any federal income tax refund received, if a tax benefit was received when it was originally deducted. If a financial institution takes a deduction for federal income tax on its Alabama return and in a subsequent taxable year all or a portion of the tax previously claimed as a deduction is refunded by the Internal Revenue Service, the taxpayer is required to recognize the refund on its Alabama return to the extent of the benefit received in the prior year.

LINE 7 – Net Federal Income Tax Deduction or Refund. Subtract line 6 (Refund of Federal Income Tax Deducted in Prior Year) from line 5 (Federal Income Tax Deduction Apportioned to Alabama). If line 5 is larger than line 6, enter the net federal income tax deduction on line 7 and enter the same amount on line 28, page 1. If line 6 is larger than line 5, enter the net federal income tax refund on line 7 and enter the same amount, as a negative number, on line 28, page 1.
