Instructions For Preparation of Alabama Partnership/Limited Liability Company Return of Income 2012

A Copy of the Federal Form 1065 must be attached to this return.

Issues Concerning the Preparation of the 2012 Alabama Partnership Return

Composite Payment and Return Requirements for Partnerships. The Entertainment Industry Incentive Act of 2009, Alabama Act Number 2009-144, also created composite payment and return requirements for partnerships. Under the law, a partnership, or other entity classified as a Subchapter K entity, is required to file a composite return and make composite payments on behalf of its nonresident owners or members if there are one or more nonresident owners or members at any time during the taxable year. The law generally exempts Alabama QIPs from the composite payment and return requirement. The instructions for TY 2012 Alabama Form PTE-C, Nonresident Composite Payment Return are available on the Department’s website, along with additional information concerning the composite payment and return requirements for partnerships.

Credit for taxes paid to a foreign country. Act 2012-427 provides a resident individual taxpayer, who is either a partner or member of a Subchapter K entity, a shareholder of an Alabama S corporation, or a beneficiary of an estate or trust, during all or part of a year, a credit equal to fifty percent of his or her proportionate share of the income taxes paid or accrued to a foreign country with respect to the tax or business. For more information refer to Section 40-18-21, Code of Alabama.

Heroes for Hire Credit. Act 2012-168 provides a $1,000 additional tax credit for job creation for employers hiring recently deployed, and now discharged, unemployed veterans; and to provide a $2,000 income tax credit to recently deployed, and now discharged, unemployed veterans who start their own businesses. Regulations to implement the law are being drafted.

Full Employment Act of 2011. By way of Act 2011-551, an Alabama income and financial institution excise tax credit is hereby established for small businesses that create new jobs paying more than ten dollars ($10) per hour. The credit shall equal one thousand dollars ($1,000) and shall be available in the tax year during which the employee has completed 12 months of consecutive employment. For additional information refer to Section 40-18-290 through 40-18-293, Code of Alabama.

Alabama New Markets Development Act. Act 2012-483 provides a state income, financial institution excise, and premium tax credit for investments in businesses in impoverished and low income communities. Additional information can be found on the Department’s website at www.revenue.alabama.gov.

Irrigation Credit. Act Number 2012-391 provides an income tax credit equal to 20% of the cost of the purchase and installation of certain conversion costs related to irrigation systems or the development of irrigation reservoirs and water wells. The credit is applicable to any agricultural trade or business. The act is effective for tax years beginning after December 31, 2011.

Alabama income tax computation and reporting requirements for partnerships and limited liability companies are based on the federal requirements. LIABILITY FOR FILING RETURNS. The annual return filing requirement for partnerships and limited liability companies doing business in Alabama is established by Section 40-18-28, Code of Alabama 1975.

MULTISTATE SUBCHAPTER K ENTITIES. The Alabama legislature passed HB 434 during the regular 2011 legislative session. With the new law, for tax years beginning on or after December 31, 2010, the Alabama apportionment formula consists of a property factor, payroll factor, and twice the sales factor. HB 434 also changed the sourcing of gross receipts from the sale of intangible assets from cost of performance to market sourcing if the taxpayer’s market for the sale is in Alabama. Regulation numbers are pending.

ALABAMA SCHEDULE K-1 – Owner’s Share of Alabama Income, Deductions, Credits, etc.

Please note: The term “gross income,” in the case of a resident individual, includes income from sources within and outside Alabama, and in the case of a nonresident individual, includes only income from property owned or business transacted in Alabama. The Alabama K-1 has two columns in some boxes of Part III. The first column of Part III is income allocated and apportioned to Alabama. This column should be completed for both residents and nonresident partners. The second column of Part III should be completed for resident partners only. This column should include the resident partner’s share of income (loss) from all sources, including income (loss) earned from other states.

To be considered a complete return, the Alabama Form 65 must be accompanied by a properly completed Alabama Schedule K-1 for each person or tax entity that was a partner/owner of the partnership/limited liability company at any time during the taxable year. Visit the Alabama Department of Revenue’s website (www.revenue.alabama.gov) to obtain a copy of the Alabama Schedule K-1 and the form preparation instructions for the Alabama Schedule K-1. A COMPLETED ALABAMA SCHEDULE K-1 THAT CONTAINS ALL INFORMATION REQUESTED FOR EACH OWNER MUST BE ATTACHED TO FORM 65.

Domestic Production Activities Deduction

Internal Revenue Code Section 199

Added by the American Jobs Creation Act of 2004 (P.L. 108-357), Internal Revenue Code Section 199 allows taxpayers the Domestic Production Activities Deduction – which is a deduction for income attributable to domestic production activities. The deduction is effective for tax years beginning in 2005 and thereafter. According to federal income tax law, a taxpayer engaged in a qualified production activity (QPA) may claim a deduction against gross income equal to the applicable percentage of its qualified production activities income, with certain limitations.

Alabama Income Tax Treatment (Issued: January 1, 2006)

Individuals:

Individual taxpayers subject to the Alabama individual income tax law are not allowed to claim the Domestic Production Activities Deduction in computing the taxpayer’s Alabama taxable income. The deduction is not allowed to individual taxpayers even if the individual taxpayer is an owner or shareholder of a pass-through entity which has gross receipts derived from qualifying production activities (QPA). Unlike Alabama’s corporate income tax, Alabama’s individual income tax is not directly tied to federal taxable income. A statutory change to Alabama’s individual income tax law would be required to conform to the federal deduction.

Pass-through Entities:

Alabama pass-through entities (S corporations, subchapter K entities, and trusts) do not take the Domestic Production Activities Deduction, but rather report (as a separately stated item) the information required for computing the Domestic Production Activities Deduction to pass-through entity owners and shareholders.

Corporations:

Corporations subject to Alabama corporate income tax law are allowed the deduction. The computation of corporate taxable income according to Alabama income tax law is tied to federal taxable income (see Section 40-18-33, Code of Alabama 1975).
